

When Wisconsin lawmakers passed the no call list a few years ago I signed up as quickly as I could. Telemarketer would start calling my home as early as 6:00 AM and would not stop until as late as 10:00 PM. I seldom even know of the company that was calling, and never bought anything. I still receive what I consider nuisance calls occasionally but not every day or all day. I do not want the federal government to get involved in this, The fact that Wisconsin had to pass such a law is proof that the govmnt. was not interested in its citizens and had failed to protect us from what are really predatory businessmen who have no right to bother me in the privacy of my home. thank you Jonnie L. Sharp. Superior, Wisconsin
